github.com/namansingla-coder • namansingla-blog.netlify.app

B.Tech student with strong coding skills, database expertise, and front-end development experience. Actively engaged in hackathons, LeetCode, and certified in relevant technologies. Adept at back-end and front-end tasks, seeking an internship to enhance skills.

EDUCATION

Bachelor's in Technology – Computer Science Engineering

Sep 2022 - Present

School of Engineering & Applied Sciences, Bennett University

GPA: CGPA: 9.14

Currently pursuing a B.Tech in Computer Science and Engineering at Bennett University, focusing on cutting-edge technologies, software development, and innovation in the field of computer science, with an expected graduation in 2026.

Class XII (CBSE)

Apr 2021 - Jun 2022

MDN Public School

GPA: 70%

Studied at MDN Public School, where I completed my 12th grade, building a strong foundation in academics and essential skills for higher education.

WORK EXPERIENCE

Training

Jun 2024 - Sep 2025

Devslane

Greater Noida

- Mastered Modern Frontend Technologies** – Gained hands-on experience in React, Redux, and Tailwind CSS, developing responsive and interactive web applications.
- Built & Optimized Web Interfaces** – Developed and refined user-friendly, scalable UI components, improving performance and user experience.
- Real-World Project Exposure** – Worked on real-world projects, learning industry best practices in frontend development, component-based architecture, and state management.

Software Engineer Intern

Jan 2025 - Feb 2025

CodeYogi

Dehradun, India

- Developed Blockchain-Based Transactions** – Implemented Bitcoin and Ethereum transfer functionalities using backend, frontend, and blockchain integration, ensuring secure and efficient transactions.
- Built Scalable Backend with AdonisJS** – Developed RESTful APIs and backend logic using AdonisJS, optimizing performance and scalability for real-world applications.
- Enhanced Practical Skills & Deployment** – Gained hands-on experience in backend development, smart contracts, and API integration, leading to the successful execution of blockchain transactions.

PROJECTS

PRODUCT CLASSIFICATION AND EXPIRY DATE DETECTION USING DEEP LEARNING

Sep 2022 - Nov 2024

Built a deep learning model for automated product categorization and expiry date recognition, achieving 95% classification accuracy and 92% OCR accuracy, reducing manual sorting time by 60%.

EazyCart

Jun 2024 - Oct 2024

Designed and developed a responsive, user-friendly e-commerce platform using React, Tailwind CSS, and JavaScript. Optimized UI and state management, resulting in a **30% faster page load time** and a **20% increase in user engagement** through seamless product navigation.

NutriGude AI

Jan 2024 - Oct 2024

Developed an AI-powered health chatbot for personalized nutrition guidance using machine learning and real-time user data. Improved dietary recommendations, achieving **85% user satisfaction** and reducing manual diet planning efforts by **40%**.

SKILLS

Tech Skills: HTML, CSS, React, Redux, Tailwind, Java, C++, JavaScript, Python, Machine Learning, MySQL, AdonisJs

Soft Skills: Team Work, Problem Solving, Positive Attitude

LANGUAGES

Hindi • English

AWARDS

Industry Hackthon by Bennett University

Jan 2024

Actively participated in an industry hackathon, contributing to the development of NutriGuide AI, a health chatbot, by collaborating with a team to design and implement innovative solutions.
